

Featuring the
KE Series actuator for
electric automation on
butterfly valves up to 4"

OS/OC Series: Wafer and Lug Style, Class 150
Resilient Seated Butterfly Valves | pg 2

Featuring **TRIAS** Controls Actuators and Accessories

A-T Controls Butterfly Valves

cover a wide range of industries from General Purpose to Chemical, Food and Beverage, Pulp and Paper, Waste Water applications and more. A-T Controls Butterfly Valves are designed to comply with MSS-SP-67 and API-609 and are tested to comply with API-598 standards. They are compatible with ANSI 125/150 flanges.

CRN

Standard Materials of Construction and Specifications

Body

Ductile Iron (Stainless Steel available)

Disc

Nickel Plated Ductile Iron (316SS, Aluminum Bronze, Nylon Coated Ductile iron, Undercut 316, Undercut Aluminum Bronze) . . . others may be available on request

Seat

EPDM (Buna-N, Food grade EPDM, High temp EPDM, Viton®, PTFE over EPDM) . . . others may be available on request

Stem

420SS (431SS, 17-4 PH® and others available)

Stem Bushing

PTFE (Lubricated Bronze available)

Stem Seal

Buna (Viton® available)

Each body is cast, precisely machined and powder coated to meet rigid tolerances.

Multiple seat and disc material options are available to meet a wide variety of process applications.

Square Stem design facilitates direct mounting of actuators.

Each stem is machined to fit tightly into the upper disc for smooth operation and minimal hysteresis.

Bushings are available in PTFE and lubricated bronze. Both are corrosion resistant with minimal effect on valve torque.

Bi-directional, bubble tight shutoff for full pressure differential.

Wafer and Lug Style

Sizes 1 1/2" - 36" in Stock

(larger sizes available)

Sizes 1 1/2" - 12" rated to 200 psi

(PTFE seats rated to 150 psi)

Sizes 14" - 36" rated to 150 psi

(PTFE seats rated to 90 psi)

ITEM	QTY.	DESCRIPTION	MATERIAL	OPTIONAL MATERIALS
1	1	DISC	DUCTILE IRON - ENP PLATED	ALUMINUM BRONZE, 316 STAINLESS STEEL, NYLON COATED DUCTILE IRON

DIMENSION "C" REPRESENTS VALVE SEAT IN RELAXED CONDITION. APPROXIMATELY 1/8" OF TOTAL COMPRESSION IS REQUIRED FOR PROPER SEALING WITH PIPE FLANGES.

A-T Controls reserves the right to change product designs and technical/dimensional specifications without notice. See website for updates.

SELECT "WET" OR "DRY" MEDIUM APPLICATION AND THE CORRESPONDING PRESSURE DROP VALUE. THEN SELECT THE VALVE SIZE AND REFERENCE THE CORRECT ACTUATOR DIMENSION SET BELOW. *PTFE Seats: Use Dry Actuator Sizing Only.*

A-T Controls, Inc.

***Manual and Automated
Resilient Seated Butterfly Valves***

OC/OS Series

Automated Tee Assemblies

A-T Controls' Butterfly Valve Tee Assemblies provide a cost-effective, alternative to a 3-way valve solution. Available for lug style butterfly valves, these unique tee assemblies can be customized to fit your application. Consult factory for valve selection and assembly options.

- Sizes 2" - 36"
- Lug style Ductile Iron body

Butterfly Valve Tee Assemblies

- Various Seat Options for special applications

When ordering please specify actuator and valve position:

Choose position:

Actuator (Primary):

☐ 3 ☐ 6 ☐ 9

Valve (Secondary) Location:

☐ 3 ☐ 6 ☐ 9

Valve Position:

- ☐ Primary Closed (CW) - Secondary Open (CCW)
- ☐ Primary Open (CCW) - Secondary Closed (CW)
- ☐ Primary Open (CCW) - Secondary Open (CCW)
- ☐ Primary Closed (CW) - Secondary Closed (CW)

Example:

Actuator (Primary): Position 3, Closed

Valve (Secondary): Position 6, Open

Flange bolting is the responsibility of the customer. Temporary flange bolts are supplied for shipping purposes only.
